

UHY Global Directory 2011

*The network
for doing business*

Welcome

This year UHY International is proud to celebrate the 25th anniversary of its network which now stands as a world leader in audit, accounting, tax and business advisory services. The network brings together the global expertise of UHY's independent members, who are all highly regarded, professional and reputable firms in their own local markets.

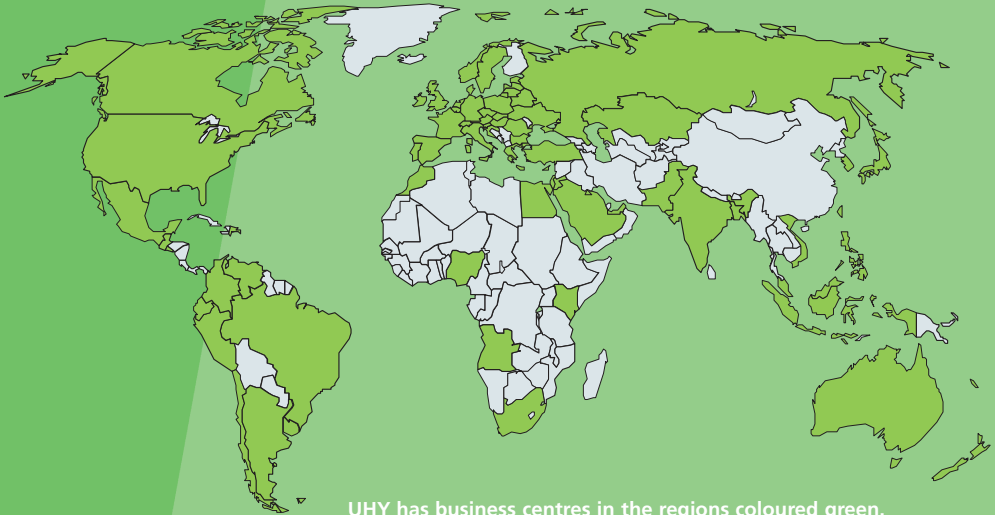

With a significant presence in our two founding member countries, the UK and the US, we now have over 6,300 professionals operating from 235 business centres in 78 countries across all continents – as shown in this latest edition of our global contacts directory. The network's depth and breadth simply helps clients successfully do business internationally and compete effectively in local and global markets.

Our national capabilities are enhanced by global resources and attentive personal service. We can deliver this because we know each other well, we know about each firm's specialist sector knowledge and about each other's individual expertise. But, more than that, we know each other as people through meeting and working together regularly.

That is why clients like working with us: we are approachable and down-to-earth individuals who can offer innovative and practical solutions for mid-market clients as well as established multinationals. We match our service teams with our clients to ensure the right corporate fit, so that we are able to support clients' aspirations and help them realise specific opportunities.

We achieve sustainable success that generates long-term and loyal client relationships. Our drive for professionalism, quality, integrity and innovation combined with this global reach have realised substantial growth in our 25-year history for both clients and member firms.

If we can help you achieve further business success, visit us online at www.uhy.com or email us at info@uhy.com for further information.

UHY has business centres in the regions coloured green.

Our commitment to quality

Quality is one of UHY's main values – because it is so very important to us we strive to achieve this in everything we do. Each of our independent member firms has signed a Quality Charter committing to the adoption and achievement of performance and service objectives considered as essential to deliver this quality promise to clients.

The expectations we have of our member firms are benchmarked to recognised international professional standards. We set specific quality goals and expectations for our independent member firms to meet, covering areas such as client service efficiency and relationship management, professional work standards, depth and breadth of products, services and geographical coverage. Collectively, they represent our aim to provide clients with consistent, seamless, professional and timely cross-border services.

Our member firms are evaluated annually against UHY's quality expectations, allowing us to assess our performance and outcomes, and look for new ways to improve further. We focus on quality through:

- Leadership
- Compliance with ethical obligations set out by the International Federation of Accountants in its global standard, Code of Ethics for Professional Accountants
- Full membership of the Forum of Firms (see below)
- Client acceptance procedures
- Human resources policies and procedures, such as education and training
- And, of course, quality control procedures in accordance with internationally-recognised standards.

It is our belief in quality as a value and the successful implementation of that value across all our service areas that make our network even more dedicated to quality than other networks.

The UHY network is a full member of the Forum of Firms, an association of international networks of accounting firms. The Forum's goal is to promote consistent and high quality standards of cross-border financial reporting and auditing practices worldwide, and the adoption of international auditing standards.

For more information, visit: www.ifac.org/Forum_of_Firms

At the time of printing, there are 21 full members.

PCAOB registered firms

UHY member firms registered with the Public Company Accounting Oversight Board (PCAOB) are enabled under section 102 of the US Sarbanes-Oxley Act 2002 to prepare or issue audit reports on US public companies and their subsidiaries abroad.

Under section 103 of the 2002 Act, the PCAOB has established auditing and related attestation quality control, ethics and independence standards, and rules to be used by registered public accounting firms, in the preparation and issuance of audit reports.
